ECO-GRES ULTRA – NEWEST ADDITION COVERINGS GREEN LINE
Exceptionally thin large format porcelain panels and tiles

Miami, FL – **Coverings Etc** recently announced the launch of **Eco-Gres™ Ultra**, large format panels and tiles made of recycled porcelain.

Eco-Gres™ Ultra is exceptionally resistant to water, wear and extreme weather conditions, making it a versatile design solution for high traffic flooring, walls, ceiling, roofing and exterior cladding.

“Following an extensive research of available commercial and residential façade paneling

Materials for our Zakalove House project, we selected the innovative **Eco-Gres™ Ultra** From **Coverings Etc** due to the high quality, the exciting range of available colors and the eco-friendly nature of the material. The versatility and durability as well as the high end finish of the panels were an additional deciding factor to use **Eco-Gres™ Ultra**” – Erich Shoenenberger

All products in our **Eco-Gres™** line are made from eco-friendly porcelain and highlight durability and versatility among their design features. Manufactured with raw materials and production processes that comply with conservation methods, **Eco-Gres™** products are ideally incorporated into high traffic areas.

Coverings Etc markets and distributes unique and distinctive high quality surface solutions. Founded in 1998, the company owns and operates two showrooms, one in Miami’s trendy Design District and the other, in New York’s fashionable Soho. It also operates warehouses in both locations to serve its nationwide customers. Recognizing the importance of using sustainable building materials, **Coverings Etc** established **ECoverings** a division solely dedicated to sourcing and marketing a new line of eco-friendly products. For more information on **Coverings Etc** or **ECoverings** and its products please call 305-757-6000 or visit our website www.coveringsetc.com
