COVERINGS ETC RELEASES FRESH OPTIONS FOR ECO-TERR™

Zuma Beach, Evergreen, Diamante, Hillcrest Grey and Silverado Black

Highlight Popular Line

Miami, FL – Coverings Etc. has recently unveiled a new selection of seasonal colors for its Eco-Terr™ terrazzo tiles, a product under the company's ECoverings line that gives buyers wise alternatives to environmental conservation.

The five new selections are now available as standard options and compliment the 36-color terrazzo tile palette already offered by the company. "We are constantly building upon our current products to give consumers the design solutions they demand and our Eco-Terr™ tiles are an example of this trend. Coverings caters to a growing national market that is using these sustainable tiles for a variety of applications - we want to give them unique blends of colors that satisfy the wide array of uses," said Sonja Bogensperger, Coverings Etc.

The Eco-Terr™ terrazzo tiles add a contemporary flair to industrial, commercial and residential spaces and are ideal for indoor flooring, worktops, and any variety of tiling. Eco-Terr™ contains up to 80% post industrial recycled materials. It is formed through a unique process of vibration and vacuum compaction of stone and glass chips with a cement binder to create a strong, thin, high-quality tile with a significant reduction of material.

Offered in polished, honed, sandblasted and antique finishes, the tiles are install-ready, rectified and calibrated. Eco-Terr's refined appearance provides a solution for prominent, high-traffic areas. The material is highly resistant to wear and low-maintenance; the tiles can be cleaned with a mild detergent and water. They are available in a 16"x16"x5/8" or 24"x24"x3/4" size.

-more-

Coverings Etc markets and distributes unique and distinctive high quality surface solutions. Founded in 1998, the company owns and operates two showrooms, one in Miami's trendy Design District and the other, in New York's fashionable Soho. It also operates warehouses in both locations to serve its nationwide customers. Recognizing the importance of using sustainable building materials, **Coverings Etc** established **Ecoverings**, a division solely dedicated to sourcing and marketing a new line of eco-friendly products. For more information on **Coverings Etc** or **Ecoverings** and its products please call 305-757-6000 or visit our website www.coveringsetc.com
